

Hello World!

why ????

The roots of a quadratic equation are given by

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a} \tag{1}$$

where a , b and c are ...

$$\Omega = \sum_{k=1}^n \omega_k$$

$$F_n = F_{n-1} + F_{n-2}$$

$$\mu = Ae^{Q/RT}$$

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a} \tag{2}$$
